## ✓ Getting QUICKLY to your choice!

Use your PC hot keys to access the commands of your choice:

F1 = Help

F3 = Outbound Journal

F5 = Administration

F7 = Inbound Journal

F10 = Basket

F2 = Requests & Orders

F4 = Received documents

F6 = Sent Documents

F9 = New Log in

F12 = Show TEC- ID

Promotion code:	Arrival Notice:
<input type="text"/>	<input type="text"/>
Storage location (customer):	Free text (cust.):
<input type="text"/>	<input type="text"/>

## ✓ OPTIMISED

With TecLocal 3.0, we can transmit the storage location. Before the goods arrive the storage location is on the dispatch advice. If there is an interface to your ERP you can prepare the put-away list with the storage location of the goods immediately.

## ✓ DISPATCH

The function „Dispatch“, has been widely enhanced.

Order	Ship to	Product	Response	Prices	Alternative	Dispatch
Express Delivery Condition:	Carrier:	Carrier ILN:	<input type="text"/>			
Incoterms1:	<input type="text"/>					
Incoterms2:	<input type="text"/>					

Whilst ordering you decide:

- Name of carrier you want to ship your merchandise with
- Delivery conditions

User Data	Connection rights	Restrictions
		<input type="checkbox"/> Do not display price information <input type="checkbox"/> Disable querying documents

## ✓ TO FIT YOUR INDIVIDUAL NEEDS

Our TecLocal 3.0 enables you to decide, depending on the position of your employees, if you want them to:

- View prices and/or
- Retrieve confidential reverse documents

Depending on the allocation of rights & roles you decide which kind of information can be displayed by whom and therefore make your company more secure.

Connecting the Aftermarket

## ✓ FLEXIBLE

Are you working with different goods receiving locations ?  
The new Release TecLocal 3.0 helps you manage this.  
Now it is possible to assign a different receiving location to each supplier.  
This location will be automatically considered every time you place an order with the supplier of your choice!

## ✓ TRANSPARENCY

New functionality of the reverse messages (order confirmation only) enables you to see, at first glance, the differences at line item level. Endless searching and scrolling of lists is no longer necessary !

selection: All with deviation with difference in quantity

Quantity Des./Del.	Product No. Maker Product No. / EAN	Designation	Desired Delivery Date

## ✓ INDIVIDUAL STANDARDS

TecLocal 3.0 considers the different conditions and characteristics of Request and Order via TecCom. This means that TecCom has become more transparent and easy to use for orderers.

Example of attributes supported by TecLocal 3.0 via a supplier profile:

- ✓ Display of processes supported by supplier (Request, Express and Stock Order, Order Tracking)
- ✓ Display of supported dispatch modes by supplier
- ✓ Consideration of mandatory fields required by the supplier, e.g. delivery date, order number
- ✓ Consideration of supplier supported fields, e.g. promotion code, customer storage location

- ✓ **YOUR BENEFITS AT FIRST GLANCE:**
  - ✓ **NEW** – new design for an easy to use solution
  - ✓ **FAST** – browse faster now with our new hot keys
  - ✓ **OPTIMISED** – quicker book-in of stock with storage location data
  - ✓ **INDIVIDUAL** – rights & roles concept has been enhanced
  - ✓ **FLEXIBLE** – define different goods receiving points for each supplier
  - ✓ **TRANSPARENT** – display differences at item level in reverse messages
  - ✓ **STANDARD** – Specific conditions of each supplier are considered (supplier profile) making TecCom a more standardised solution.

✓ TecCom – ONE  
SOLUTION FOR ALL  
PARTS!
