

TecClassic Order – simple and easy solution to bring your ERP online!

TecClassic Order offers the complete range of functionality to generate and send requests and inquiries electronically. TecClassic Order also enables the automated online receipt of availability information and transaction documents from TecCom suppliers. Orders can be sent directly from the ERP system. TecClassic Order includes Order Matching, which enables retrieval of documents related to a specific transaction, and Order Tracking, which checks the current status of an order.

Goals

- Seamless order process through ERP integration
- Savings of time and money in daily order management
- All suppliers available from one platform
- Reduced IT costs

Solution

TecClassic Order – Go ONLINE with your ERP system

- Connect your ERP system to TecCom using an interface
- Use HTTPS communication protocol
- Direct order triggering from your ERP system, sending orders automatically to your supplier
- Automatic receipt and processing of reverse messages—order confirmation, delivery notice and invoices—is possible as an option. Available in flat format or XML.
- TecLocal graphical user interface (GUI).

Benefits

- Availability information is sent directly to you electronically by suppliers - you can react quickly and flexibly
- Product data can be imported from the ERP system and electronic parts catalogs - reducing product identification errors
- Orders are created in the ERP system and then sent electronically - saving time in daily order management
- Direct transfer of reverse messages to your ERP system, available as an option, allows including order status in your inventory planning, optimizing your disposition.
- Order Tracking, if supported by the relevant supplier, monitors the current status of an order - a tool to optimize your warehouse management.

Requirements

- Normal PC
- Operating system WIN98 2nd Edition or higher
- Internet connection (DSL recommended)
- interface ERP ↔ TecCom

Pricing

- Interface development, installation and brief training 650,00 €
- Software maintenance per installation / yearly fee 300,00 €
- (Option: providing of reverse messages for the MMS system development and test of the conversion tables, per message type 960,00 €
- Software maintenance yearly fee 119,00 €
