

### TecConversion Center – The Solution for the Universal Exchange of EDI Messages

The exchange of data in different formats is always increasing in the replacement part trade. This causes higher expenses for IT systems and interfaces for both part manufacturers and traders. In order to reduce these costs as much as possible it is important to minimize the number of formats used internally. Using the TecConversion Center – EDI allows you to use the proven EDI standard and be able to process other formats from your supplies and customers.

#### The Goals

- Reduce the number of communication types
- Consolidate individual solutions on one platform
- Reach all suppliers using a single platform
- Minimize IT expenses

#### The Solution

TecConversion Center EDI – one platform instead of individual solutions!

- Exchange messages with suppliers in the formats EDI (Clepa/Fiegefa D.96A), XML or CAP
- Remain flexible by supporting the most important automotive message standards
- Consolidate individual solutions onto a single platform and reduce your IT expenses
- Support all ordering processes (ORDER, ORDRSP, DESADV, INVOICE)

#### What is TecConversion Center - EDI ?

- Convert from different formats. The following conversions are possible:
  - EDI to TXML
  - TXML to EDI
  - EDI to EDI
  - CAP to EDI
  - EDI to CAP
- Available transmission protocols are FTP, OFTP and HTTPS.
- Conversion of the following message formats:
  - Availability inquiries and responses
  - Orders
  - Order confirmations
  - Delivery notices
  - Invoices
